Summary

- * Full-stack developer with a strong passion for programming.
- * Transitioning from eight years in the appliance repair industry which utilized problem solving skills and adaptability.
- * Excited and eager to learn new things and push my abilities to overcome new challenges of solving complex problems as a member of a great development team.

Recent Projects

[Fixithub](#) - July 2017

A full-stack Java application that connects clients to appliance service companies. Users are able to search and schedule service appointments based on services submitted availabilities, view and submit reviews, and keep records of service.
[Java](#) | [Spring Framework](#) | [MySQL](#)
[JavaScript](#) | [Jquery](#) | [HTML](#) | [CSS](#)
[Mobile Responsive](#)

[Texas Affordable Appliance](#) - June 2017

A project to help a local appliance repair company build a web presence with a website. Site was created from the ground up including all content and images.
[HTML](#) | [CSS](#) | [JavaScript](#) | [Mobile](#)
[JQuery](#) | [Bootstrap](#) | [Google Maps API](#)

[Adlister](#) - June 2017

A CMS web app that allows users to view, create, and browse ads created by users, as well as create an account themselves. By integrating the MySQL database I was able to create, read, update, and delete user account and ad info to create this dynamic web app.
[Java](#) | [MySQL](#) | [JSP](#) | [JSTL](#)
[HTML](#) | [CSS](#) | [Bootstrap](#) | [Mobile](#)

[Simple Simon](#) - May 2017

A Simon memory game clone that is mobile responsive and implements features like a high-score, and standard and reverse levels. All logic and animations for this game are written in Javascript and JQuery.
[JavaScript](#) | [Jquery](#)
[HTML](#) | [CSS](#) | [Mobile](#)

Experience

[Allstar Appliance Repair](#), April 2016- March 2017 - Service Technician

- * Utilized problem solving and logic skills to properly diagnose and repair residential appliances.
- * Documented services and properly quote customers for services needed and rendered.
- * Maintained up to date knowledge of technical data and issues of specific industry

[Appliance Parts Depot](#), October 2014- April 2016 - Customer Service Rep.

- * Guided customers through diagnosis and repair of appliances utilizing technical knowledge and problem solving skills.
- * Sold over \$60,000 monthly of appliance parts and accessories.
- * Maintained customer relations with service companies utilizing customer service skills.

[Classic Appliance Repair](#), August 2013- October 2014 - Service Technician

- * Utilized problem solving and logic skills to properly diagnose and repair residential appliances.
- * Documented services and properly quote customers for services needed and rendered.
- * Maintained up to date knowledge of technical data and issues of specific industry

Skills

[Frontend](#)

[JavaScript](#) | [Jquery](#) | [HTML](#)
[CSS](#) | [Bootstrap](#) | [ReactJs](#)

[Backend](#)

[Java](#) | [MySQL](#)
[PHP](#) | [Spring Framework](#)

[Additional](#)

[JSON](#) | [AJAX](#) | [Git](#)
[Flexbox](#) | [SASS](#) | [API's](#)
[Mobile Responsive](#) | [MVC](#) | [CRUD](#)

[Personal](#)

[Fast Learner](#) | [Driven](#)
[Self-starter](#) | [Knowledge-seeker](#)

Education

[Codeup](#), March- July 2017

Completed an immersive full-stack developer program with over 536 hours of instruction and development of projects.

[Capella University](#), 2015- 2016

Completed 24 credit hours towards the Information Technology degree program with a major in web development.
